**Pinakin Technology Solutions**  
- Your Solution Partner for Air Pollution Control,  
Water Pollution Control And Solid Pollution Control

- Pollution Control System
- Wastewater Versatile Solutions
- Sea Water Desalination Plant
- Waste Plastic Recycling Plant
- ETP Plant
- Zero Liquid Discharge Plant
- MVR Rising Film Evaporator
- MVR Falling Film Evaporator
- Ultraviolet Water Disinfection System
- Cooling Crystallizer Technology
- Sea Water Desalination Plant
- Fruit Juice Concentrator and Evaporator
- RO Plant

*We are leading Manufacturing Co. For Air pollution control and water Pollution control Equipments in India. We provide the solution related to equipment like MVR Evaporator System, WET ESP – Wet Electrostatic Precipitator, Boiler Scrubber System, Maltodextrin Evaporator System, JetVenturi Scrubber, Cooling Crystallizer Technology, Packed Tower Scrubber System, Scrubber Wastewater Treatment, Waste Water Tumkey Project, etc. and many more machines and equipment associated with different types of pollution controlling technology is being provided by us.*

12:50 p.m. – 01:10 p.m.	Solar salt and marine chemicals technologies @ CSIR-CSMCRI	Dr. Arvind Kumar
LUNCH BREAK (01:10 p.m. – 02:30 p.m.)		
<b>SESSION-2</b> <b>Scientific Design, Mechanization/Automation &amp; Environmental Impacts of Solar Salt Works</b> (02:30 p.m. to 04:00 p.m.) Session Chair: Dr. Hiren Raval		
02:30 p.m. – 02:45 p.m.	Mechanization and salt quality improvement in Indian solar salt works	Mr. Ajit Kumar Kotecha
02:45 p.m. – 03:00 p.m.	Scientific design, modernization and advanced construction of solar salt works for producing increased yield of quality salt	Dr. Bhoomi R. Andharia
03:00 p.m. – 03:15 p.m.	Advancements in solar salt industry: A comprehensive exploration of automation for enhanced efficiency and sustainability	Mr. Param H. Dave
03:15 p.m. – 03:30 p.m.	Salt refinery	Mr. Ganesh Iyer
03:30 p.m. – 03:45 p.m.	Salt Secrets - Biology of solar salt works- (Virtual)	Mr. Vladimir M. Sedivy
03:45 p.m. – 04:00 p.m.	Designing of a salt works "Environment-friendly"	Mr. Dilipsinh Jadeja
TEA/COFFEE BREAK (04:00 p.m. – 04:30 p.m.)		
<b>SESSION-3</b> <b>Quality Control &amp; Brine Purification for Chlor-alkali/allied Industry and Trace Metals Recovery from Saline Systems</b> (04:30 p.m. to 06:15 p.m.) Session Chair: Dr. Vaibhav Kulshreshtha		
04:30 p.m. – 04:45 p.m.	Global scenario of growth of alkali industry	Mr. P. N. Rao
04:45 p.m. – 05:00 p.m.	Salt quality control and brine purification for Chlor-alkali industry	Mr. Najmul Khan

## INTERNATIONAL CONFERENCE ON ADVANCES IN SALT AND MARINE CHEMICALS Brine Mining, Purification and Resource Recovery

05:00 p.m. – 05:15 p.m.	Chlor-alkali industries expectation on salt quality for using high performance membranes in electrolyzer	Dr. Randheer Yadav
05:15 p.m. – 05:30 p.m.	Advancements in sulphate removal and concentration membrane system (SRCS) for brine purification, sustainable chemistry and waste reduction	Mr. Nithin Jose
05:30 p.m. – 05:45 p.m.	Opportunities and challenges in recovering crucial trace elements from seawater	Dr. Alok R. Paital
05:45 p.m. – 06:00 p.m.	Lithium ions extraction from seawater bittern using room temperature ionic liquid	Mr. Abdolreza Hormati
06:00 p.m. – 06:15 p.m.	Uranium extraction from seawater	Dr. Shilpi Kushwaha
07:00 p.m. – 09:00 p.m.	Cultural program	
09:00 p.m. onwards	Gala dinner	

DAY 2	23 <sup>rd</sup> February 2024	
<b>SESSION-1</b> <b>Bittern Management and Marine Chemicals</b> <b>(10:00 am to 11:00 am)</b> Session Chair: Dr. A. M. Bhatt		
10:00 a.m. – 10:15 a.m.	Strategic advancements in industrial brine preparation: A holistic approach to marine salt and bromine recovery @ CSIR-CSMCRI	Dr. S. C. Upadhyay & Mr. Sumit Heda
10:15 a.m. – 10:30 p.m.	Magnesia based ceramics for high temperature applications: Activities at CSIR-CGCRI	Dr. H. S. Tripathi
10:30 a.m. – 10:45 a.m.	Magnesium production through molten salt electrolysis	Dr. Naveen Kumar Chandrasekaran
10:45 a.m. – 11:00 a.m.	Recovery of potash and magnesium salts from kainite type mixed salt	Dr. Pratap Shashikant Bapat
TEA/COFFEE BREAK FOLLOWED BY CSMCRI VISIT (11:00 a.m. – 11:45 a.m.)		
<b>PARALLEL SESSION-2A</b> <b>Salt and Health (Standards, Specialty Salts, Salt Fortification, Microplastics)</b> <b>(11:45 am to 01:30 pm)</b> Session Chair: Dr. C. S. Pandav Venue: Rang Manch Dome, CSIR-CSMCRI		<b>PARALLEL SESSION-2B</b> <b>Invited Talk &amp; Oral Presentation</b> <b>(11:45 am to 01:30 pm)</b> Session Chair: Dr. Tejwant Singh Kang Co-chair: Dr. Asish Kumar Parida Venue: Auditorium, CSIR-CSMCRI

#### MESSAGE

I am happy to know that India Exhibition Services & CSIR-(Central salt and marine chemical research Institute) are jointly organizing Salt India 2024 -International Exhibition and Conference focus on Salt Products, Production and Process, Equipment, Machinery, Technology Raw Materials Salt Plant, Civil Engineering & Allied Industries is a platform for the major stakeholders of the Salt producers industry and their buyers to find out the new business opportunities. The expo will provide the latest key trends in international & regional salt industry on 22-24 February 2024 at CSIR-Central salt and marine chemical research Institute.

Salt India 2024 organized with the main aim to promoting the growth and development of the Salt Industry in India in association with Indian Salt Manufacturers' Association. The event will offer so many opportunities for networking and business for the participants from the salt industry.

I am sure this event will be an ideal opportunity to make new business contacts for collaboration and trade, to investigate joint ventures and technology transfers and to identify potential investors.

**I wish all the best to the Exhibitors, Visitors and Organizers.**

**MESSAGE**

On behalf of Agariya Heet Rakshak Manch, we extend our heartfelt wishes for the resounding success of the Salt India Expo 2024, jointly organised by India Exhibition Services & CSIR- Central salt and marine chemical research Institute.

The Salt India Expo 2024 stands as a premier platform in the salt industry, illuminating pathways of innovation, collaboration, and advancement. It reflects the dedication and ingenuity of all involved in the production, processing, and equipment sectors.

We commend the efforts of the organizers, exhibitors, and attendees for their unwavering commitment to excellence, pivotal in propelling the industry forward. May this event serve as a catalyst for forging fruitful partnerships, pioneering discoveries, and transformative growth.

We extend our best wishes for a highly successful and enriching experience during the exhibition, from February 22nd to February 24th. May your endeavours at the Salt India Expo 2024 pave the way for a brighter and more prosperous future for the salt industry and beyond.

I wish all the best to the Exhibitors, Visitors and Organizers.

## CSIR-Central Salt & Marine Chemicals Research Institute Celebrating 70 Years of Glorious Journey

Central Salt & Marine Chemicals Research Institute (CSIR-CSMCRI) stands as a pivotal constituent laboratory within the framework of the Council of Scientific & Industrial Research (CSIR) in India, inaugurated by Pandit Jawaharlal Nehru, the first Prime Minister of India on April 10, 1954. Over a span of seventy years, CSIR-CSMCRI has evolved into a preeminent research institute with a vision "explore, harness and transform marine resources for the good of the people".

The institute's primary research pursuits encompass a spectrum of domains including salt and marine chemicals, membrane-based desalination & separation processes, catalysis for marine-based organic chemicals, specialty inorganic materials, renewable energy, and innovative waste-to-wealth creation processes. Furthermore, there is a targeted focus on plant molecular biology & biotechnology,

particularly emphasizing the cultivation and downstream processing of seaweeds, microalgae, and halophytes. The research ambit extends to saline waste management, emphasizing value recovery, environmental impact assessment, and fostering human resource development through science and technology-driven sustainable innovations.

In presenting the developments in the recent past, the institute underscores its unwavering commitment to community-centric innovations. Noteworthy accomplishments include the successful licensing of impactful technologies. The institute has also demonstrated substantial progress in intellectual property, with the creation of new knowhow and patents. Despite challenges posed by the COVID-19 pandemic, collaborative endeavours with esteemed industries and government organizations underscore the institute's resilience and unwavering dedication to impactful research.
